Career Objective

To kickstart my career as a front-end developer, I aim to leverage my technical skills in HTML, CSS, JavaScript and React JS to develop visually appealing and user-friendly websites. By collaborating with experienced professionals, I intend to contribute to innovative projects and gain practical experience in delivering high-quality front-end solutions.

Additional Skills

- HTML
- CSS
- Bootstrap
- Tailwind CSS
- JavaScript
- React JS
- Problem solving
- Quick learner

Projects

2022
Tula's Institute

PORTFOLIO

- In my portfolio, I have included a diverse range of projects that highlight my skills and experience as a front-end developer. Each project provides a unique showcase of my abilities in web development, user interface design, and creating engaging user experiences.
- Technologies used: **HTML, CSS, React JS**

2023

Website Clone

- I cloned many websites landing pages , there are multiple components in every page like: Navbar, Slider, Cards, Carousels, Footer. These pages are responsive also.
- Technologies used: **HTML, CSS, JavaScript, Bootstrap, React JS**
- **Project Link: https://tour-b7f0f.web.app/**
